Partner Spotlight

Four County Community Foundation

Kathy Dickens - Executive Director

OUR MISSION

Four County Community Foundation is committed to serving the current and emerging needs of our local community, continuing the tradition of philanthropy begun generations ago.

The Foundation is dedicated to bringing together human and financial resources to support progressive ideas in education, health, community, youth and adult programs.

The Foundation provides a secure, flexible vehicle for individuals, families, foundations and organizations to positively impact the quality of life in our community.

The Foundation recognizes that in order to meet its commitments to the community it serves it must seek growth through its permanent endowment funds from a wide range of donors.

Funded projects in last 5 years. Together, we can do even better!

ROMEO COMMUNITY SCHOOLS EDUCATION FUND

Empower Students with Your Support!

The purpose of the Romeo Community Schools Education Fund, held at Four County Community Foundation, is to support innovative and enriching educational experiences for students across the district. Donations to this fund will provide ongoing support for the competitive quarterly grant cycles administered by 4CCF.

These grants will fund classroom projects, field trips, student clubs, and other initiatives that enhance learning, foster creativity, and build community within the schools and other "school sponsored" initiatives.

Donations of any kind and size are welcome!

Focus on Growth

How Far Can We Go?

Resource Allocation

What Do We Need?

Percent of Projected Growth Met is the ratio of observed (actual) growth to projected growth (after fall screening) for the group.

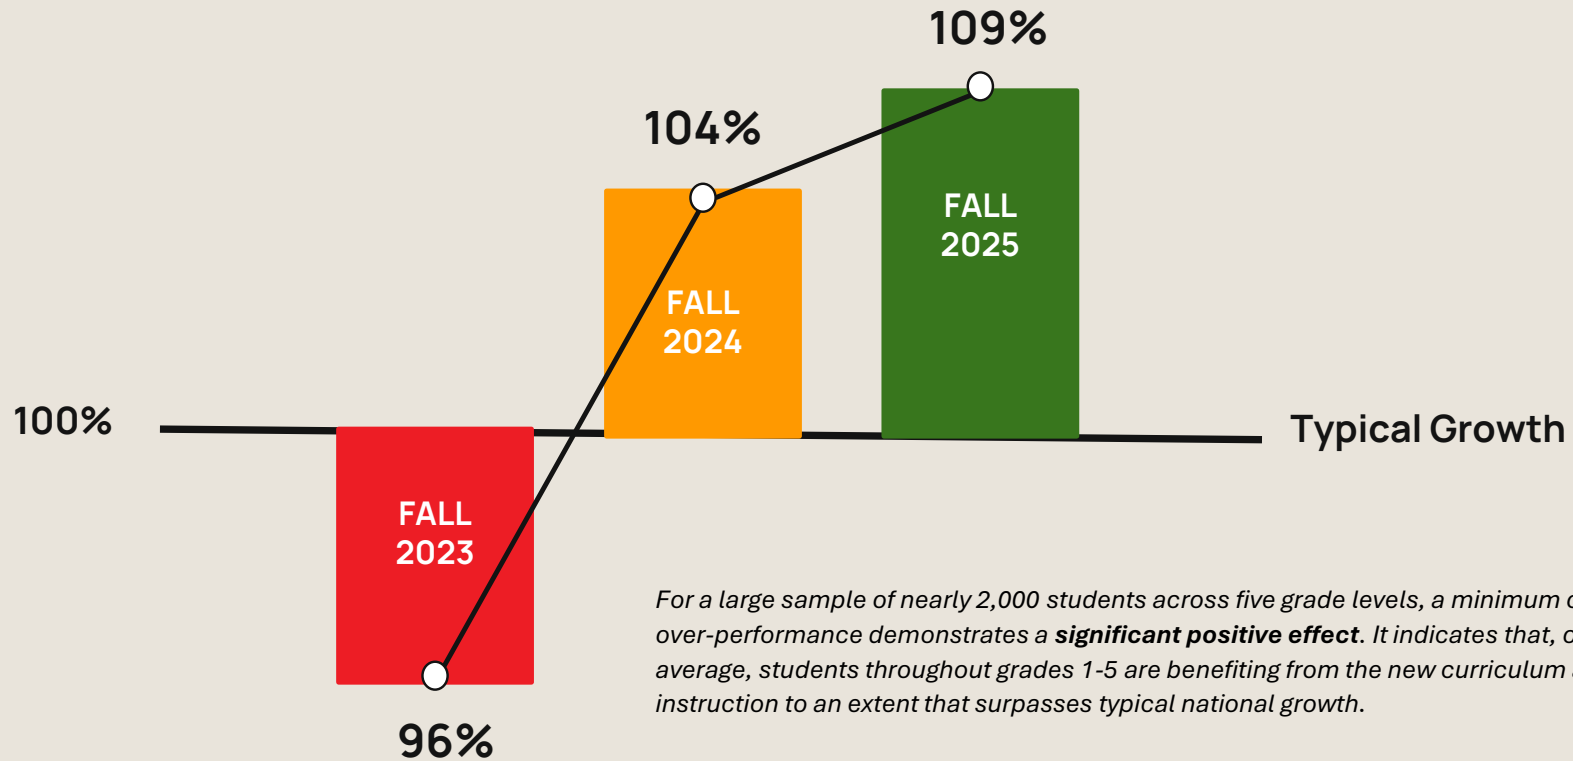

In this instance, a new curriculum should result in a percentage $\geq 100\%$, and this number should be higher than the baseline year. 100% is typical growth.

What is the Percent of Projected Growth Met?

The percent of projected growth met is an ideal metric for evaluating a new curriculum because it accounts for individual student starting points.

A successful curriculum should help all students, from those scoring high to those scoring low, exceed their expected growth. The score above 100% confirms that the *sum of all gains* exceeded the *sum of all goals*.

Why is the Percent of Projected Growth Met important?
