

Croswell Center

Early Childhood

Special Education

Romeo Community Schools provides services for eligible children ages 3-5 in our Early Childhood Classroom offered at Croswell Center. This is a special education program for children who meet eligibility requirements, with delayed speech and/or language, difficulties with social interactions, decreased attention skills and/or delays in the areas of fine/gross motor skills.

Does your child meet any of the following?

Speech – Can people understand what your child is saying? Can the child make his/her needs and wants known?

Language – Can your three-year-old speak in three or four word sentences? Can your four or five-year-old child speak four to six word sentences? Can he/she follow multi-step directions? Can he/she answer questions appropriately? Does the child understand concepts such as: in, on, up, down, over, under, next to?

Social Skills – Does the child interact appropriately with other children? Is he/she overly withdrawn or aggressive?

Fine or Gross Motor Coordination – Can the child color, trace, button, and zip? Can he/she ride a tricycle, catch a ball and hop?

Early intervention has proven to be successful with children having difficulties with speech/language, social skills, attention skills, or fine/gross motor coordination. If you would like your child to be evaluated to determine if he/she would benefit from early intervention, please contact Romeo Special Services at 586-752-0212 to request an evaluation.

(Birth Certificate, Immunization record & proof of residency is required prior to requesting an evaluation)
